CAT5 Cable Terminations Used With EV-200 Ethernet Extenders

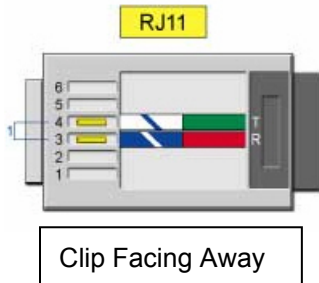

RJ-45 connectors (8 wire)
RJ-11 connectors (6 wire)

RJ-45 connections use for all Ethernet terminations (E1-E2) at EV-200 repeaters and network switches.

Wire opposite side
same

RJ-11 connection use for all 2-wire extended Ethernet terminations (Line) at EV-200 repeaters.

Pins 3 and 4 only
It may make wiring easier
by inserting 6 wires into the
RJ-11 plug.
